NEUROLOGY®

“I want to begin by stating the obvious: Doctors make mistakes. We’re not perfect, we’re human. Even the best doctors experience critical lapses. And when that happens, patients suffer . . .
Roughly 100,000 deaths a year are due to medical errors.”

Sanjay Gupta

“Monday Mornings”

March 11, 2012

“The next time you’re at the doctor’s office, take a peek at those certificates hanging on the wall. Like gallons of milk, some of them are expiring.”

Associated Press
April 5, 2010

“Either we must act, and that promptly, or yield the control of this field to others.”

James V. May, M.D.

“Either we must act, and that promptly, or yield the control of this field to others.”

James V. May, M.D.
APA President
1933

Outline of Presentation

- A. Introduction
- B. General Characteristics of the ABPN MOC Program
- C. Components of the ABPN MOC Program
- D. ABPN MOC Programs
- E. ABPN Patient Safety Course Requirements
- F. ABPN Physicians Folios
- G. Conclusions

A. Introduction

- The world of healthcare delivery is undergoing **tremendous change**.
- We are now in a **new era** of:
 - Concern about **rising costs of medical care**.
 - Concern about **patient safety and medical errors**.
 - Concern about **transparency of information** about physician competency.
- **All physicians** will be affected by **new rules and regulations** designed to address these concerns.
- In this presentation, I will present a **specific strategy known as MOC that can help** diplomates prepare for and adapt to the difficult challenges that lie ahead.

B. General Characteristics of the ABPN MOC Program

- **Consistent with ABMS guidelines** (Parts I – IV).
- **Balances competing factors.**
 - Quality and credibility
 - Convenience and cost
 - Diplomate satisfaction and participation
- **Likely fulfills the requirements for Maintenance of Licensure (MOL).**
- **Fulfills federal requirements** for quality documentation (CMS Rules).
- **Contains components identified as crucial** by organizations that credential physicians and pay for services.

- Incorporates **philosophical tenets.**
 - Accountability
 - Independence
 - Peer Driven Process
 - Competence
 - Continuous Quality Improvement
 - Professionalism
 - Credibility
 - Collaboration
 - Convenience
 - Life-Long Learning

- Reinforces Life-Long Learning of ABPN Diplomates.
 - “ABPN Diplomates Learning to Protect”
 - Protecting your patients
 - Protecting your profession
 - Protecting yourself
 - “ABPN Diplomates Learning to Improve”
 - Learning from your profession - Professional Standing (MOC I)
 - Learning from your patients - PIP (MOC IV)
 - Learning from your teachers - CME (MOC II)
 - Learning from your peers - PIP (MOC IV)
 - Learning from your health system - PIP (MOC IV)
 - Learning from yourself - SA, CME, PIP, MOC Exam (MOC II, III, IV)

C. Components of the ABPN MOC Program

I. Part I – Professionalism and Professional Standing

- **Unrestricted medical license**
 - Measure of professionalism
 - Always been a requirement for ABPN certification
- **ABPN Statement in Professionalism**
 - Professionalism forms the basis of medicine's contract with society. The ABPN is concerned with those aspects of professionalism that are demonstrated through a physician's **clinical competence, commitment to lifelong learning and professional improvement, interpersonal skills, and ethical understanding and behavior**. In its credentialing, certification, and MOC programs, the ABPN seeks to assess and document that its candidates and diplomates possess and maintain these aspects of professionalism.

II. Part II – Lifelong Learning and Self-assessment (SA)

- Self-assessment
 - 24 SA CME credits required in the 10-Year MOC Program
 - Diplomates in the 10-Year MOC Program who take the MOC examination in 2015-2021
 - SA examinations
 - Developed by peers
 - Provide feedback to guide CME and life-long learning
 - Must earn CME credit (Beginning in 2014)
 - May occur before, during, or after an educational activity
 - Must be pre-approved by the ABPN (Beginning in 2014)

- **8 SA CME credits waived** for specific non-CME activities that assess diplomate performance.
 - **Certification/MOC examination** passed
 - **Peer reviewed grant** accepted
 - **Peer reviewed paper** accepted in scientific journal*
 - **Non-CME patient safety course SA** completed
 - **Peer supervision (4 hours)** documented
 - **Peer review of clinical performance** documented
- **Maximum of 16 SA CME credits waived**
 - From **two different non-CME SA activities**
- **CME**
 - Average of **30 Category I CME credits/year**
 - Developed by peers
- **SA and CME complete a medical knowledge quality improvement cycle.**

* Indexed in MEDLINE

Medical Knowledge Quality Improvement Cycle

III. Part III – Assessment of Knowledge, Judgment, and Skills

- Secure, **proctored, practice relevant examination.**
- Developed by peers.
- Administered at Pearson VUE Professional Centers.
- Diplomates must complete all other MOC requirements.
 - **Diplomates keep their own MOC data and attest** completion to ABPN
 - **One set of completed MOC activities suffices** for multiple certificates
- **Random audits** of diplomate applicants.
- Passing score extends the period before another exam is required to 10 years.
 - **High pass rate expected**

IV. Part IV – Improvement in Medical Practice

- **1 Performance in Practice (PIP) Unit required for the 10-Year MOC Program.**
 - Diplomates in the 10-Year MOC Program who take the MOC examination in 2015-2021
- Each PIP Unit
 - Clinical Module
 - Feedback Module
- **Modules must be pre-approved by the ABPN (2014).**
- **Credit will be given for approved institutional QI activities and “meaningful participation” in the ABMS Portfolio Program.**
- PIP Modules complete a **clinical activity quality improvement cycle.**

- 
- **Clinical Modules**
 - Obtain data from at least 5 patients in a similar category (diagnosis, treatment).
 - Diplomates select their own categories and cases
 - Compare data to practice guidelines developed by peers.
 - Assess at least 4 quality indicators
 - Identify opportunities for improvement.
 - Implement improvements.
 - Recollect data within 2 years from at least 5 patients in the same category (same or different patients).

- 
- **Feedback Modules**
 - **Diplomates choose one type of Feedback Module** they want to complete.
 - **Patient Surveys** (at least 5 patients selected by diplomate)
 - **Peer Surveys** (of General Competencies)*
 - **Institutional Peer Review** (of General Competencies)*
 - **Supervisor Evaluation** (of General Competencies)
 - **Resident Evaluations** (of General Competencies)*
 - **360° Evaluation** (of General Competencies)*
 - **Identify opportunities for improvement.**
 - **Implement improvements.**
 - **Re-solicit opinions within 2 years.**

*Must include at least 5 evaluators.

PIP Unit – A Three Step Process

To earn PIP credit, a three step process must be completed for both the **clinical module and feedback module**.

Step A: **Initial assessment***

Step B: **Identify and implement improvement**

Step C: **Re-assessment***

* = use same tools for Steps A & C (chart category, survey, etc.)

Clinical Activity Quality Improvement Cycle

D. ABPN MOC Programs

10-Year MOC Program Requirements						
Original Certification or Recertification Year	MOC Application Year	MOC Exam Year	Medical License	CME Credits	CME from SA Activities	PIP Unit
2005	2014	2015	Active, full, unrestricted license	270	24	1
2006 – 2011	Applications due year before exam	2016 - 2021	No restrictions on any license	300 ↓	↓	↓
2012	*See Continuous MOC Program (C-MOC) at www.abpn.com/c-moc					

- All CME, SA and PIP activities must be completed *prior* to applying for MOC examination.
- SA CME credits contribute to the overall number of required CME.
- SA activities must be selected from the Approved MOC Products List on www.abpn.com or from the ABPN list of specific non-CME activities
- PIP activities must be selected from the Approved MOC Products List, from an ABMS Portfolio Program OR be preapproved for an individual or institutional QI activity.

The Continuous ABPN MOC Program

- Begins for diplomates certified or recertified in 2012.
- Requirements for CMOC.
 - Unrestricted medical license(s)
 - Cognitive examination every 10 years
 - Specific MOC activities every 3 years
 - 24 CME hours of Self-assessment activities
 - Maximum of 16 SA CME hours waived for certification/MOC examination, peer reviewed grant or paper, non-CME patient safety SA, peer supervision (4 hours), or peer review
 - 90 CME hours (includes the 24 SA CME hours)
 - 1 PIP Unit (Clinical Module and Feedback Module)
- Annual registration on the ABPN Folio.
- Annual MOC fee (\$175 for 2014).
 - No fee for one MOC cognitive examination in 10 years

Continuous MOC (C-MOC) Program Requirements

Original Certification or Recertification Year	MOC Application Year	MOC Exam Year	Medical License	CME Credits	CME from SA Activities	PIP Unit
2012 - Present	Online applications due year before exam	Every ten years for every certificate	Active, full, unrestricted license No restrictions on any license	90 Every three years	24 Every three years <i>CME from SA contributes to overall CME credits</i>	1 Every three years

- All CME, SA and PIP activities must be completed *every three years*.
- SA activities must be selected from the Approved MOC Products List on www.abpn.com or from the ABPN list of specific non-CME activities
- PIP activities must be selected from the Approved MOC Products List, from an ABMS Portfolio Program OR be preapproved for an individual or institutional QI activity.

- 
- Diplomates who graduate from an ACGME – accredited subspecialty fellowship in 2011 or later and pass the ABPN subspecialty examination receive 3 years of MOC credit (SA, CME, PIP).
 - Diplomates with “life-time” certificates may now join the Continuous MOC Program in two ways.
 - Pass the MOC examination
 - Register for the Continuous MOC Program, complete 3 years of required MOC activities, and pass the MOC examination within 3 years

NEW REQUIREMENT

E. ABPN Patient Safety Course Requirements

- Part of the 2015 ABMS MOC Standards.
- Begins for **diplomates certified or recertified in 2016**.
- Diplomates must complete an ABPN-approved Patient Safety Course **prior to certification or in the first 3-year period of the Continuous MOC Program**.
- Patient Safety Courses **must include didactic information, questions, and performance feedback**.
 - Must include Required Topics and Optional Topics (See ABPN website).
 - May or may not earn CME credits.
- Non-CME Patient Safety Courses must be developed and given by accredited institutions (e.g., hospitals, clinics, training programs).

G. Conclusions

1. These are **trying times** for all physicians.
2. We can expect to **see more and more calls for objective evidence** of on-going physician competence.
3. The **ABPN can be an ally** and its MOC Program can help diplomates respond to public concerns.
4. This is **a time for calm and reasoned leadership** – not anger or panic.
5. The ABPN will strive to make its MOC Program **credible** and also **reasonable**.
6. The ABPN **welcomes feedback** from diplomates and will attempt to incorporate constructive suggestions to continually improve its MOC program.
 - Feedback Module requirements
 - Non-CME SA options
 - 10-Year MOC Program SA and PIP requirements

“My hope is that we begin to rely more on objective markers like board certification as a statement of quality . . . One can always ask a doctor if he or she is board certified and involved in maintaining that certification. It’s a straightforward quality marker, and it’s a question that’s easy to ask . . . **and as a patient, I find that reassuring.**”

John Norcini, Ph.D.

New York Times

August 12, 2010

“NOTE: All policies, components and requirements of the ABPN’s MOC program are **subject to change**. It is the responsibility of each individual ABPN Diplomate to remain apprised of the current applicable MOC program. As such, Diplomates are encouraged to consult the ABPN’s website (www.abpn.com) regularly to ascertain whether any changes have been made.”
