ABMS History

1917: First Member Board incorporated (Ophthalmology)

1933: ABMS established

**1934: American Board of Psychiatry and Neurology
Established**

.....

.....

1991: 24th Member Board is approved (Medical Genetics)

1999: General Competencies established

**2000: Four Components of MOC adopted by all ABMS
Member Boards**

**2006: All Member Boards received approval of their MOC
programs**

2009: All Member Boards initiated MOC programs

**American Board
of Medical Specialties**

Higher standards. Better care.®

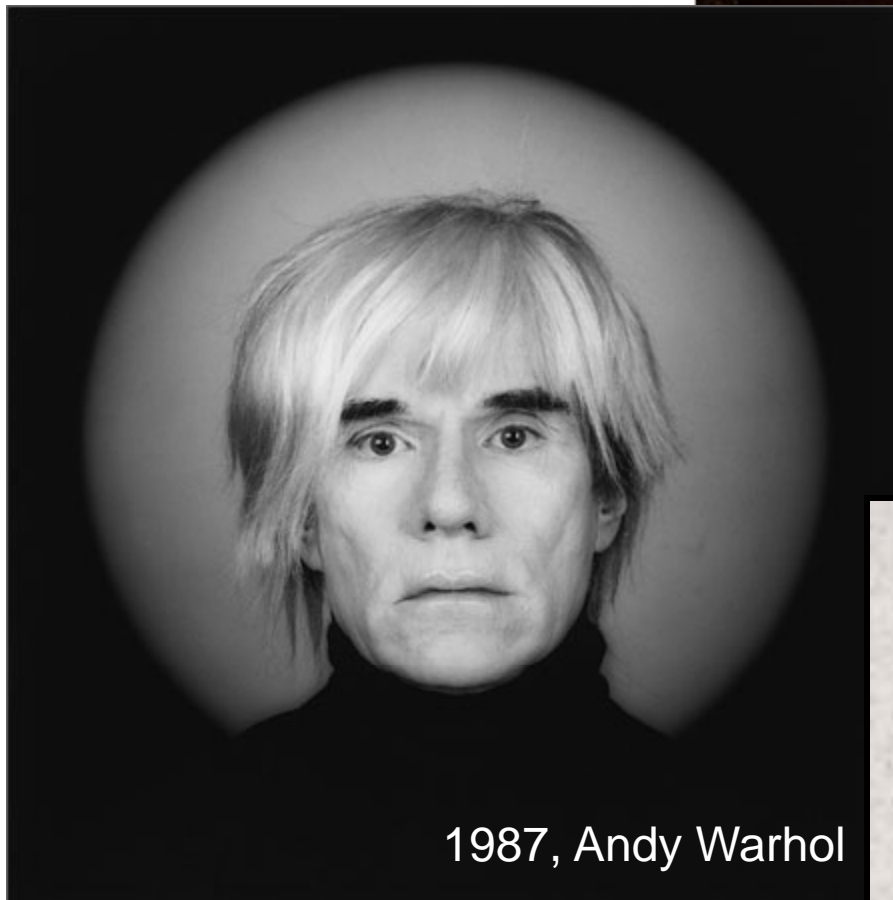

Great tradition of the Board Movement and ABPN

- » A product of the sponsorship of the American Psychiatric Association, the American Neurological Association, and the American Medical Association.
- » A new model of identifying the qualified specialists in psychiatry and neurology
- » And separate the functions of professional self-regulation from education and other member interests.

Dr. Janet Corrigan, President/CEO, NQF

- » Reported on Recent joint NQF-ABMS Evaluating Physician Performance (EPP) summit
- » Value in Boards taking a leadership role as part of the national quality enterprise
- » Need for Boards to embrace physician issues of physician accountability

American Board
of Medical Specialties
Higher standards. Better care.®

» Four areas for focus

1. Patient centeredness
2. Transparency
3. System-based care
4. Overuse and waste (stewardship of scarce resources)

The Future

- » ABMS Board Enterprise model of voluntary specialty-based certification will be foundation of credentialing for foreseeable future
- » Unclear relevance the ABMS Board Enterprise model will be for improving health care quality and patient safety (value to public).
- » Unclear how much value we provide the diplomates if we are not aligned with physician accountability movement

In conclusion:

- » **We can enjoy 75+ years of success at improving the quality of care in the US.**
- » **Time to applaud the Member Board efforts to date on MOC**
- » **However the path for self-regulation is evolving with new public demands--perhaps to shared-regulation**
- » **So its time to celebrate, but only for a evening as the journey to secure self-regulation for our profession is uncertain, and the stakes for the public trust are great.**
