

American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

2017

Information for Applicants

Initial Certification Examination

in

Psychiatry

The information contained in this document supersedes all previously printed publications concerning Board requirements, policies, and procedures. For the most current information, please visit our website at www.abpn.com.

Initial Certification Exam in Psychiatry

Date Choices:	September 18-19, 2017
Application Deadline:	February 3, 2017
Late Deadline:	March 3, 2017

2017 Fee Schedule*

Application fee**	\$ 700
Examination fee	\$ 1685
Total fee	\$ 2385
Late application fee (in addition to the above)	\$ 500
Reexamination fee***	\$ 1685
Reexamination late application fee (in addition to the above)	\$ 500
Application/licensure appeal fee****	\$ 350
Examination appeal fee****	\$ 300
Irregular behavior appeal fee****	\$ 350
Application for testing accommodations appeal fee****	\$ 350
Duplicate certificate fee	\$ 150
Returned check charge	\$ 50

- * All fees must be submitted in U.S. currency.
- ** Fee is non-refundable.
- *** Reexamination fees are in addition to any appeal fees.
- **** Appeal fees are refundable if the decision is in the appellant's favor.

Please Note:

- The ABPN reserves the right to revise fee schedules at any time.
- Throughout this publication, the American Board of Psychiatry and Neurology, Inc. May be referred to as "the Board" or as "ABPN."

Important Dates

Exam Date Choices:	September 18-19, 2017
Applications Available:	November 4, 2016
Applicant completing training after July 31, 2017 should contact the Board regarding eligibility	January 15, 2017
Application Deadline:	February 3, 2017
Late Application Deadline:	March 3, 2017
Applicant should contact the Board if they have not received notification regarding their application	May 26, 2017
Scheduling Instructions Emailed	July 13, 2017
Graduation verification due in the Board office for residents graduating June 30, 2017	July 15, 2017
Pearson VUE Registration Opens	July 20, 2017
Graduation verification due in the Board office for residents graduating July 31, 2017	August 15, 2017
Active, full, unrestricted license due in the Board office or application is denied	September 2, 2017

D. Post Pediatric Portal Programs	13

I. Training Information for Psychiatry Certification Examination

A. General Training Requirements

References to residency refer to entry at the second year of postgraduate (PGY-2) training, unless otherwise stated. Residency training must be in the specialty in which the applicant seeks certification, except for residents who are in an approved combined training program.

Training programs approved by the residency review committees and accredited by the ACGME can be found on the ACGME website at www.acgme.org.

The required years of training may be completed on a part-time basis, provided that it is no less than half-time.

The ABPN recommends that all programs allow a minimum of four weeks of leave time (including vacation, sick time, maternity/paternity leave, etc.) during training per year. These four weeks should be averaged over the four-year training period. Leave or vacation time may NOT be used to reduce the total amount of required residency training or to make up deficiencies in training.

All training must be completed by September 15, 2017.

Effective for residents entering residency training (PGY-2 in psychiatry) as of July 1, 2002:

The 36 months of full-time, specialized residency training must be completed in no more than two blocks. If completed in two blocks, the blocks must not be more than 10 years apart.

Effective for residents entering residency training (PGY-2 in psychiatry) as of July 1, 2011:

Full time residency training must be completed in no more than two blocks. If completed in two blocks, the blocks must not be more than five years apart and the shorter block must not be less than six months long. One year full time equivalent of subspecialty residency training must be completed in a continuous block of not less than one-half time.

B. Training in More Than One Residency Training Program

To ensure continuity of training, the Board requires that two of the three years of residency training, excluding the PGY-1, be spent in a single program. The ABPN credentials committee will consider an exception to this rule only under extraordinary circumstances. In such cases, respective program directors should contact the Board office, in writing, **prior to the transfer**. The letters must outline the resident's training content, duties, and responsibilities, including exact dates (month/day/year to month/day/year) of training, and indicate clearly that the resident will satisfy all ACGME program requirements as outlined on the ACGME website, www.ACGME.org. Each case will be considered on an individual basis.

If the credentials committee approves the request, the Board will notify the program directors in writing. A copy of this letter should be given to the resident as well as noted in the resident's ABPN preCERT® record. Residents who have not received prior approval from the Credentials Committee risk the possibility that the Board will deny their application.

When training is completed in more than one program, the training director of the first program should send the training director of the second program a letter detailing the training satisfactorily completed, including exact dates (month/day/year to month/day/year) of training, and areas of training that are deficient. After reviewing this documentation, the training director of the second program should inform the resident whether or not the second program will be able to provide the resident with the experience necessary to remove the deficits.

C. Specific Training Requirements

Unless otherwise specified, all training must be completed in programs accredited by the ACGME. (See sections on Canadian and combined training, below)

An applicant seeking admission to examination for certification in psychiatry must have satisfactorily completed an ACGME-accredited PGY-1 (see below) and three full years of postgraduate, specialized residency training in a psychiatry program accredited by the ACGME.

For residents who enter subspecialty training in child and adolescent psychiatry prior to completing general psychiatry training requirements, one year of certain clinical experiences with children, adolescents, and families taken during the period when the resident is designated as a child and adolescent psychiatry resident may be counted toward general psychiatry requirements as well as child and adolescent requirements, thereby fulfilling some of the requirements in both general psychiatry as well as child and adolescent psychiatry. However, the resident may not sit for the general psychiatry examination until the resident has successfully completed an ACGME-accredited PGY-1, the two full years of postgraduate, specialized residency training in a psychiatry program accredited by the ACGME, and the one year of residency training in child and adolescent psychiatry completed in a program accredited by ACGME.

Different requirements apply for applicants who began training in psychiatry prior to 1986. These candidates should call the Board office if they have any questions.

All applicants for the Psychiatry certification examination must successfully complete three clinical skills evaluations that comply with the standards set forth in the document *Requirements for Clinical Skills Evaluation of Residents in Psychiatry*.

Two patterns of training are acceptable:

1. **Three-year Psychiatry Residency Program**
A broad-based clinical year of ACGME-accredited training in internal medicine, family medicine, or pediatrics; or an ACGME-accredited transitional year program that included a minimum of four months of primary care medical; or an ACGME-accredited residency in a clinical specialty requiring comprehensive and continuous patient care
AND
Three full years of postgraduate, specialized residency training in a psychiatry program accredited by the ACGME
OR
2. **Four-year Psychiatry Residency Program**
Four years of training in an ACGME-accredited program in psychiatry is acceptable. A psychiatry PGY-1 must include at least four months in internal medicine, family medicine, and/or pediatrics. This training must be in a clinical setting that provides comprehensive and continuous patient care. No more than one month of this requirement may be fulfilled by an emergency medicine rotation, as long as the experience predominantly involves medical evaluation and treatment rather than surgical procedure. Neurology rotations may not be used to fulfill this four-month requirement.

Canadian Training Programs

Canadian residents may **APPLY** to the ABPN for examination **ONLY** if they:

1. Completed their training in a Canadian program accredited by the Royal College of Physicians and Surgeons of Canada
AND
2. Achieve certification by the royal college of Physicians and surgeons of Canada
AND
3. Possess an unrestricted license to practice medicine in a Canadian province

Other International Training

Currently the ABPN does not accept other international training.

II. Requirements for Admission to the Psychiatry Certification Examination

A. General Requirements for All Applicants

To qualify to sit for examination, an applicant must:

1. Be a graduate of an accredited medical school in the United States or Canada or of an international medical school listed by the World Health Organization.
2. Have an active, full, unrestricted medical license as defined in the **separate Board Policies Manual** on the ABPN website. Applicants are required to submit copies of their active, full, unrestricted medical licenses, showing the expiration date with their applications **OR** update their medical licenses in their ABPN Physician Folios account.
3. Have satisfactorily completed the Board's specific training requirements in psychiatry, as described in Section I.
4. Submit a completed official online application including all required attachments and the appropriate application and examination fees by the specified deadlines. Applicants are required to apply online through their ABPN Physician Folios account at www.abpn.com/folios.

All training must be confirmed either by way of the ABPN preCERT® system or by submitting documentation noting the completion of training requirements.

If you are unable to activate your account, you may need to submit a request to apply for the examination. This process may take up to three business days. Therefore, we encourage applicants to allow enough time to submit the request prior to the deadline for applications. **The deadline for submission of a completed application is February 3, 2017.**

*Applicants for specialty certification examinations who do not yet have an unrestricted medical license because they are in training are not required to submit a copy of their medical license at the time of application for the examination. However, such applicants must submit a copy of their active, full, unrestricted medical license with expiration date no later than September 2 of the year of the examination **OR** update their medical licenses in their ABPN Physician Folios account. If the Board office does not receive the medical license by September 2 **OR** it has not been updated in the appropriate Folios account, the application will be denied and the Board will retain the application fee and any late application fee.

B. Initial Certification in Psychiatry

Effective January 1, 2012, ABPN will require physicians to become Board certified within seven years following successful completion of ACGME-accredited or ABPN approved residency training in their primary specialty.

Graduates may take the ABPN certification examination as many times as allowed during the 7-year period. Certification examinations are offered once a year.

Individuals who have completed an accredited residency program prior to January 1, 2012 will have until January 1, 2019 to become board certified.

Individuals who do not become certified during the 7-year period (or before January 1, 2019 for those who completed residency training before January 1, 2012) will be required to (1) repeat the required clinical skills evaluations; and (2) complete one stage of MOC [(90 CME credits, 24 self-assessment CME credits, and 1 PIP Unit (includes a clinical module or feedback module)] in order to be credentialed to take the ABPN Certification Examination.

Changes in the Credentialing Process

The ABPN has made changes in the credentialing process effective for residents who entered residency training in psychiatry on or after July 1, 2007 (PGY-1) or July 1, 2008 (PGY-2). Some of the clinical skills evaluations that were conducted previously in the Part II oral examination are now taking place within the residency program and the residents will be required to submit documentation of satisfactory performance in the evaluation of clinical skills as part of the ABPN credentialing process. Assessment of other clinical skills has been integrated into the computerized Certification examination beginning in 2011.

Candidates who successfully pass the Psychiatry certification examination will be awarded a certificate in their specialty. NOTE: there is no Part II oral examination for candidates who entered residency training in psychiatry on or after July 1, 2007 (PGY-1) or July 1, 2008 (PGY-2).

Admission to the Psychiatry certification examination requires completion of three clinical skills evaluations that comply with the standards set forth in the document *Requirements for Clinical Skills Evaluation in Psychiatry*.

In addition to documentation of their PGY-1 and residency training, all physicians must submit documentation from the program director of an ACGME accredited psychiatry program verifying completion of the three clinical skills evaluations or verifying that the three clinical skills evaluations will be completed by July 31, 2017. Physicians who do not provide acceptable documentation of successful completion of the three clinical skills evaluations by the deadline will be denied an opportunity to sit for the certification examination. For physicians in the preCERT® system, verification of training is done in preCERT®.

Residents who entered residency training in psychiatry prior to July 1, 2007 (PGY-1) or July 1, 2008 (PGY-2):

Physicians who entered psychiatry training prior to July 1, 2007 (PGY-1) or July 1, 2008 will not have completed the clinical skills evaluations that are currently required during residency training. Such physicians will be required to complete the required three clinical skills evaluations in an ACGME-accredited program and comply with the standards set forth in the document *Requirements for Clinical Skills Evaluation in Psychiatry* before they will be admitted to the certification examination. Evaluations must be completed by July 31, 2017. Refer to document on the ABPN website.

III. Psychiatry Certification Examination: Application Process, Procedures, Format and Content

A. Application Process Information

Information in this section is important for all candidates. Please read carefully.

Applicants are required to apply online through ABPN Physician Folios at www.abpn.com/folios. If you are unable to activate your account, you may need to submit a request to apply for the examination. This process may take up to three business days. Therefore, we encourage applicants to allow enough time to submit the request prior to the deadline for applications.

The Information for Applicants publication and the associated Application for Initial Certification are revised each year. The Information for Applicants document may be downloaded from the ABPN website.

The applicant will receive an email confirming that the application was received.

Applications are reviewed in the order of receipt. Applicants who do not receive any notification from the Board regarding their applications by May 26, 2017 should contact the Board office to inquire about the status of their application.

Applicants are required to keep their email, mailing address, and license information up-to-date in ABPN Physician Folios.

NOTE: Candidates may not withdraw from the Psychiatry Certification Examination, and fees are not refundable. Applicants denied admission to the examination are notified of their deficiencies in meeting the requirements of the Board. Application fees are not refunded for any reason.

Applications remain active for two consecutive examinations only. Candidates who fail to present themselves for the first scheduled examination following the date of acceptance of their applications are required to reapply by submitting a new online application, current application fee, and the examination fee.

B. Off Cycle Graduating Residents

Residents finishing training after July 31 must have their program director send an email to the Manager, Credentials notifying the ABPN that the resident will be finishing training after July 31 and indicating the date that they expect the resident will be completing training.

ABPN will allow the candidate to sit for the Certification Examination provided all required training is completed and all ACGME requirements have been satisfied by September 30th in the year of the Certification Examination. Since September 30 may fall after the dates that the examination is being administered, ABPN will allow the candidate to schedule a later date to sit for the examination. However, **a candidate may not schedule themselves for examination until ABPN has informed Pearson VUE that the candidate is authorized to sit for examination.**

Once the resident has successfully completed training, the program director must confirm that the training has been completed. ABPN will then notify the candidate that he/she may proceed with contacting Pearson VUE to schedule their examination.

ABPN will not allow a candidate to sit for the Certification Examination if training has not been completed by September 30 in the year of the Certification Examination.

Please note that ABPN does not guarantee the availability of locations, dates, and/or times of Pearson VUE test centers. If a candidate is unable to schedule an appointment that initially suits their needs, the candidate should schedule the best appointment he/she can at that time. The candidate may then contact Pearson VUE periodically to reschedule if a more suitable appointment becomes available.

C. Other

Applicants who complete training after September 30, 2017, will be denied an opportunity to sit for the 2017 Psychiatry Certification Examination.

Training Licenses

Applicants who submit a training license with their application, must submit an active, full, unrestricted license to the Board office by September 2, 2017. Applicants who do not submit a copy of their full, unrestricted medical license by September 2, 2017, will be denied to sit for the 2017 Psychiatry Certification Examination.

Training Program Documentation

Applicants who do have training records in the ABPN preCERT® system:

- Please check with your program if you are unclear if your information is in preCERT®
- Please note that before you can apply, your rotations from PGY-1 through PGY-3 must be entered by your program, attested to and marked complete. In addition, your PGY-4 rotations must be entered but not attested to.

Applicants who do not have training records in the ABPN preCERT® system:

- All documentation must include exact dates of training (from month/day/year to month/date/year) and be submitted by letter from the program director.

- Note: For residents who completed both the PGY-1 and residency training in the same program, a letter documenting both may be included together in one letter.

- For residents completing training on June 30, 2017:

If documentation of successful completion of training either by attestation in the ABPN preCERT® system or by a completion of training letter is not received by July 15, 2017 deadline, the candidate may be removed from the examination roster and may be denied to sit for the 2017 Psychiatry Certification Examination.

- For residents completing training after June 30 but by September 30, 2017.

If documentation of successful completion of training either by attestation in the ABPN preCERT® system or by a completion of training letter is not received by September 30, 2017 deadline, the candidate may be removed from the examination roster and may be denied to sit for the 2017 Psychiatry Certification Examination

D. Applicants with Disabilities

Applicants with disabilities who wish to request testing accommodations should review the Policy for Applicants with Disabilities on the ABPN website at www.abpn.com and submit the required forms and documentation.

E. Computer-Administered Examination Procedures

Note: ADA candidates will receive individual scheduling and examination materials.

Approximately two months prior to the examination, scheduling information is emailed to candidates whose applications have been approved. Candidates are urged to contact Pearson VUE as soon as scheduling opens to make an appointment for the examination. A delay in contacting Pearson VUE can result in fewer available openings for the examination in a candidate's choice of date and location. ABPN does not guarantee the availability of

locations, dates and/or times of Pearson VUE test centers. ABPN candidates may schedule an exam at a Pearson VUE center outside the United States or Canada for an additional \$100 fee. The fee will be included in the total amount if paid in full, or in the first payment if the payment is split. Under certain conditions, it may be possible for a candidate to schedule an examination at a U.S. military base outside of the U.S. for no additional fee. These candidates must initially pay the \$100 fee when applying for an examination and will be contacted by the Board with additional information. ABPN does not guarantee the availability of locations, dates and/or times of Pearson VUE test centers.

If the name that the candidate applied under is different than the name that appears on the identification, certified, legal documentation (marriage license, name change determination, etc.) verifying the name change must be submitted to the Board office prior to the date of the examination. Address and/or email address changes must be updated online through the ABPN Physician Folios at www.abpn.com/folios.

Candidates are required to present two forms of identification upon arrival at the testing center. One of the forms of identification must be government issued and must display a recent, permanently-affixed photograph. Both forms of identification must be signed and both must be valid (not expired). The first and last names on both identifications must match the name on file with the ABPN. Failure to comply with these requirements may result in the candidate's inability to gain admission to the examination. If a name change has recently occurred, it is recommended to bring a copy of legal documentation to the testing center on the appointment date. Government-issued identification includes military identification, passports, driver's licenses, and state identification cards. Secondary Identification includes a Social Security card, valid credit card, bank automated teller machine card.

Candidates may NOT bring food, drink, cellular phones, pagers, other electronic devices, books, study materials, or other personal belongings, including watches and wallets, into the examination room. A secure locker is available to store personal items. Candidates may not access phones or other devices of any kind while on optional or unscheduled breaks. Accessing prohibited items during optional or unscheduled breaks constitutes irregular behavior and may be cause for invalidation of examination result (See separate Board Policies Manual).

Candidates are NOT permitted to leave the testing center's building during a test section. Leaving the building during a test section constitutes irregular behavior and may be cause for invalidation of examination results (See separate Board Policies Manual).

Candidates are photographed and are required to provide an electronic signature at the computer test centers. For security purposes, candidates are required to place each hand on a palm vein device each time they enter or leave the computer test center. This information is stored electronically. Candidates must agree to the Pearson VUE Professional & Regulatory Candidate Rules. Candidates must agree to the *ABPN Nondisclosure Agreement* before taking the examination.

Candidates are observed at all times while taking the examination. This observation includes direct monitoring by testing center staff, as well as video and audio recording of the examination session.

General questions about requirements and logistics of ABPN examinations may be asked of ABPN staff by telephone or onsite. Verbal complaints to staff, directors, proctors, or examiners that continue after explanation of ABPN policy that rise to the level of harassment may be considered irregular behavior (See separate Board Policies Manual).

Candidates are required to sit for the examination for which they have applied. Candidates who fail to do so are required to reapply by submitting a new application form, copies of all medical licenses, meeting the current credentialing requirements and paying the application fee and the examination fee.

Note: Candidates may not withdraw from the Psychiatry Certification examination and fees are not refundable.

Candidates unable to sit for an examination on the scheduled date:

Candidates who are unable to sit for the examination on the date that they have scheduled must first contact Pearson VUE no less than 24 hours in advance to reschedule the examination. If Pearson VUE is unable to reschedule the examination date, candidates should then contact the Board office to determine the availability of rescheduling opportunities. Candidates may be rescheduled, provided there is still an opening in the testing date range. These candidates may be required to pay an additional \$199 seating fee. If there is no other date available in the testing date range, they must sit for the originally scheduled date or forfeit their fees.

Candidates unable to sit for their scheduled examination due to an unforeseen medical or other emergency:

Candidates who are unable to sit for their scheduled examination due to an unforeseen medical or other emergency should submit a personal statement and supporting documentation of the emergency to the Board office, no later than 30 days after the date of the examination. The Board will then evaluate the documentation and determine whether the absence is excusable. In determining whether an absence is excusable, the Board will consider whether the claimed emergency could have been anticipated and/or foreseen prior to the examination. Candidates suffering from pre-existing and/or chronic conditions generally will not be excused for medical or other emergencies relating to such conditions. If the absence is determined excusable, the candidate is rescheduled for the next ABPN computer-administered examination, and the examination fee will be transferred. Such candidates will be responsible for paying a rescheduling fee of \$399 and may be responsible for paying any difference in the examination fee. In the event a candidate is granted two consecutive excused absences, subsequent requests for rescheduling will be denied, only the candidate's examination fee (but not rescheduling fees) will be refunded, and such candidates will be required to re-apply in order to sit for examination.

Candidates who fail the computer-administered examination (except Pain Medicine and MOC Pain Medicine):

Candidates who fail the initial computer-administered examination may pay a reexamination fee and repeat the examination at the next available administration. Candidates being reexamined and who fail or do not sit for the reexamination as scheduled are required to reapply online, and pay the current application fee and the examination fee.

F. Psychiatry Certification Examination Format and Content

Examinations are administered at Pearson VUE testing centers. Details on examination format and content are available at <http://www.abpn.com/become-certified/taking-a-specialty-exam/psychiatry/>.

The Board recommends that examinees use the following resources for test preparation: peer-reviewed journals, current monographs and textbooks, review publications, practice guidelines, accredited CME programs, and attendance at professional meetings.

G. Grade Letters and Certificates**1. Grade Letters**

- Computer-Administered Examinations

All initial certification and MOC examinations for specialties, including Child and Adolescent Psychiatry: The President and CEO of the Board notifies candidates in writing of the results of their computer-administered examinations no later than ten to twelve weeks from the last date of the testing date range.

2. Certificates

Successful candidates receive their certificates approximately two months after grade letters are mailed. It is the candidate's responsibility to notify the Board office, in writing, if he or she does not receive a certificate within six months. If a candidate does not submit a written notification that the certificate was not delivered, the candidate must request a duplicate certificate and pay the appropriate fee. (See Fees at the beginning of this document.)

3. Duplicate Certificates

Photocopies of Board certificates are not available from the ABPN.

Requests for duplicates of ABPN certificates must specify the diplomate's:

- Name
- Address
- Phone number
- Birth date
- Signature
- Preference of how his or her name will be printed on the certificate
- Specialty or subspecialty certification for which he/she is requesting a duplicate certificate

The diplomate must include:

- A copy of each current medical license held, showing the expiration date
- For security purposes, a copy of government-issued photo identification, such as a driver's license or passport
- The appropriate fee (See Fees at the beginning of this publication.)

NOTE: For any name changes on a certificate, the diplomate must submit certified, legal documentation (marriage license, name change determination, etc.) to the Board office.

A form for requesting a duplicate certificate may be obtained from the ABPN website at www.abpn.com. Certificates are printed approximately four times per year. Depending on when a duplicate certificate is requested, it may be four to six months until the diplomate receives the duplicate certificate.

H. Computer-Administered Examination Appeal Procedures

The Board provides applicants appeals procedures for certain negative determinations. Specifically, a candidate may appeal:

- The rejection of credentials for admission to an examination (See procedure 1 below)
- Invalidation of an examination score due to irregular behavior (See procedure 1 below)
- The denial of a request for disability accommodations (See procedure 1 below)
- A failing grade on a computer-administered examination (See procedure 2 below)

1. Appeal Procedure for Rejection of Credentials, Invalidation of Examination Score Due to Irregular Behavior, or Denial of a Request for Disability Accommodations

An applicant may appeal the decision if:

- The applicant submitted a formal application and received a negative determination regarding the application
- The applicant's examination scores are invalidated because of irregular behavior
- The applicant's request for disability accommodations was denied

Such applicants or candidates must submit the following materials to the President and CEO at the Board office:

- Written request for a formal appeal
- Applicable appeal fee (See Fee Schedule)
- Additional written information that supports the appeal

The appeal materials must be sent in a single mailing that is post-marked within 30 days of the date indicated on the letter of negative determination. The materials are sent to the respective Appeals Committee, which reviews the materials, deliberates, and makes a determination. In all events, the Appeals Committee's determination is final and binding on both the Board and the candidate.

If the appeal is granted, the appeal fee will be returned to the candidate.

2. Appeal Procedure for Computer-Administered Examination Failing Grade

A candidate who believes that there was a compromise in the administration of the examination may choose to appeal a negative determination. A failing grade on a computer-administered examination is considered a negative determination.

Appeals are limited to a review of an alleged compromise in the administration of the examination. Specifically, that the examination was administered in a manner that was atypical or did not meet the Board's guidelines. An appeal does not result in a review of a candidate's performance on an examination.

An appeal will never reverse a negative determination of a computer-administered examination. Rather, a successful appeal will result in the examination being invalidated and the candidate being rescheduled to sit for the examination at the next available administration.

Candidates who wish to appeal a negative determination must submit the following materials to the President and CEO at the Board office:

- Written request for a formal appeal of the negative determination
- Applicable appeal fee (See Fee Schedule)
- Additional written information in support of the appeal

The appeal materials must be sent in a single mailing that is post-marked within 30 days of the date indicated on the letter of negative determination.

The materials are sent to the respective Appeals Committee, which reviews the materials, deliberates, and makes a determination. In all events, the Appeals Committee's determination is final and binding on both the Board and the candidate.

If the appeal is granted, the appeal fee will be returned, the score for the examination will be invalidated, and the candidate will be rescheduled to sit for the examination at the next available administration.

IV. Special Programs

A. Supplementary Certification

Candidates may apply for certification in another specialty. A candidate may have more than one application on file with the Board if the applications are for certification in different specialties or subspecialties. Candidates completing training both in psychiatry and in neurology or child neurology may apply to sit for examinations in both specialties.

1. Dual Certification in Psychiatry and in Neurology

Unless otherwise specified, all training must be completed in programs accredited by the ACGME.

Applicants seeking certification both in psychiatry and neurology who began residency training prior to January 1, 1999 should contact the Board office for requirements.

The ABPN has approved programs for combined training in psychiatry and neurology. Residents interested in completing a combined residency training program in psychiatry and neurology should complete their training in one of the ABPN approved combined psychiatry and neurology training programs.

For residents entering non-ABPN-approved combined psychiatry and neurology residency training on or after July 1, 1999:

Program directors should contact the Board office for a copy of the combined psychiatry/neurology guidelines. The respective program director(s) should submit a proposal to the Board office, no later than the beginning of the PGY-3, detailing the training proposed for the resident. As stipulated in the combined training guidelines, the resident is required to complete a PGY-1 that meets the requirements for neurology.

B. Joint Training in Pediatrics/Psychiatry/Child and Adolescent Psychiatry

The American Board of Pediatrics and the American Board of Psychiatry and Neurology have approved programs for combined pediatrics/psychiatry/child and adolescent psychiatry residency training. This training consists of 24 months of pediatrics, 18 months of psychiatry, and 18 months of child and adolescent psychiatry. Completion of the program will satisfy the training requirements for certification in all three areas. Physicians pursuing training in these programs may not apply for examination until all training has been completed.

C. Combined Training Leading to Certification by Two Boards

The American Board of Psychiatry and Neurology (ABPN) currently has the following programs for psychiatry:

1. Dual Certification in Psychiatry and Family Medicine

The American Board of Family Medicine (ABFM) and the ABPN have approved programs for combined training in psychiatry and family medicine. Residents interested in completing a combined residency training program in psychiatry and family medicine must complete their training in one of the ABPN/ABFM approved training programs.

2. Dual Certification in Psychiatry and Internal Medicine

The American Board of Internal Medicine and the ABPN have approved programs for combined training in psychiatry and internal medicine. Residents interested in completing a combined residency training program in psychiatry and internal medicine must complete their training in one of the ABPN/ABIM approved training programs.

D. Post Pediatric Portal Programs

Post Pediatric Portal Programs (PPPP) are approved by the American Board of Psychiatry and Neurology. Physicians who have completed training in an ACGME-accredited pediatric residency program may enter an ABPN-approved Post Pediatrics Portal Program at the PGY-4 level. The training consists of 18 months of general psychiatry training and 18 months of child and adolescent psychiatry training. Physicians completing an ABPN-approved Post Pediatric Portal Program may pursue certification in both general psychiatry and child and adolescent psychiatry. Certification in general psychiatry is a prerequisite for admission to examination for certification in child and adolescent psychiatry.
