CONTINUING CERTIFICATION/MOC COMBINED EXAMINATION IN CHILD AND ADOLESCENT PSYCHIATRY

2021 Content Blueprint

(July 10, 2019)

Number of questions: 100		
01.	Development	8–12%
02.	Applications of basic science to clinical practice	4–6%
03.	Diagnostic methods	8–12%
04.	Psychopathology (differential diagnosis, classification, clinical course)	23–27%
05.	Treatment	18–22%
06.	Issues in practice	13–17%
07.	Consultation	8–12%
08.	Prevention	4–6%
TOTAL		100%

Note: A more detailed content outline is shown below.

CONTINUING CERTIFICATION/MOC COMBINED EXAMINATION IN CHILD AND ADOLESCENT PSYCHIATRY 2021 Content Outline

01. Development
A. Normal child development, including sexual identity development and child development theory
B. Developmental variables
1. Risk factors
2. Protective factors
3. Parent-child interaction
C. Family systems, including alternative family structures
02. Applications of basic science to clinical practice
A. Neuroscience
1. Neuroanatomy/neurophysiology
2. Neurotransmitters/neuroreceptors

American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

	3.	Neuroimaging
	4.	Developmental neurobiology
	5.	Molecular genetics
B.		Pharmacology
	1.	Pharmacokinetics/pharmacodynamics
	2.	Developmental neurotoxicity
C.		Clinical science
	1.	Epidemiology
	2.	Statistics
	3.	Research paradigms
	4.	Genetics (population genetics)
03.		Diagnostic methods
	A.	Interviewing, including mental status examination and diagnostic assessment
	B.	Developmental assessment
	C.	Rating scales
	D.	Psychological testing
	E.	Medical/laboratory testing, including neurologic
	F.	Diagnostic imaging
04.		Psychopathology (differential diagnosis, classification, clinical course)
	A.	Neurodevelopmental disorders
	1.	Developmental disorders
		a. Intellectual disability
		b. Autism spectrum disorder
		c. Specific learning disorders
		d. Communication/language disorders
		e. ADHD
		f. Tic disorders/stereotypic movement disorders
	2.	Disruptive, impulse control, conduct disorders
		a. Conduct disorder
		b. Oppositional defiant disorder
		c. Intermittent explosive disorder
	3.	Other
		a. Elimination disorders
	B-I	
	B.	Psychological factors affecting other medical conditions
	1.	Delirium
	C.	Substance-related and addictive disorders

American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

D.	Schizophrenia spectrum and other psychotic disorders
E.	Bipolar and related disorders and depressive disorders
1.	Bipolar and related disorders
2.	Depressive disorders
F.	Anxiety disorders
1.	Separation anxiety disorder
2.	Selective mutism
3.	Generalized anxiety disorder
G.	Trauma- and stress-related disorders
1.	Posttraumatic stress disorder
2.	Acute stress disorder
3.	Reactive attachment disorder
4.	Adjustment disorders
H.	Obsessive compulsive disorders
I.	Feeding and eating disorders
1.	Anorexia nervosa
2.	Bulimia nervosa
3.	Other feeding and eating disorders
J-Q	
J.	Somatic symptom and related disorders
K.	Somatic symptom and related disorders
L.	Dissociative disorders
M.	Sexual dysfunctions, gender dysphoria/paraphilic disorders
N.	Sleep-wake disorders
O.	Personality disorders
P.	Comorbidity
05. Treatment	
A.	Treatment settings/levels of care
B.	Psychotherapies/psychoeducation
C.	Psychopharmacology, including medication monitoring
D.	Medical decision making
E.	Other
06. Issues in practice	
A.	Suicide
B.	Violence/homicide
C.	Custody/divorce
D.	Adoption/foster care

American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

E.	Abuse/neglect
F.	Ethics/liability
G.	Cultural issues
H.	Sexual orientation
I.	Bereavement
J.	Death and dying
K.	Alternative treatments
L.	Public policy/advocacy
M.	Legal issues of practice
07.	Consultation
A.	Pediatrics
B.	Neurology
C.	School
D.	Community/systems of care
E.	Forensic
08.	Prevention
