ABPN Updates Clinical Skills Evaluation Forms for Psychiatry and Child and Adolescent Psychiatry

November 2020

Dear Psychiatry and Child and Adolescent Psychiatry Program Directors and Coordinators,

The American Board of Psychiatry and Neurology (ABPN) has recently added new subsections to the clinical skills evaluation (CSV) forms for Psychiatry and Child and Adolescent Psychiatry.

Please refer to these pages on our website for the most current information and forms:

- [Psychiatry Residency Training Information](#)
- [Child and Adolescent Psychiatry Residency Training Information](#)

We have modified the subsections on the forms to emphasize important topics such as gender identity, cultural issues, and ethnicity.

There is no mandate to change your currently approved CSV forms as this is a recommendation by ABPN.

There are no changes to CSV passing requirements outlined in the following documents:

- [Requirements for Clinical Skills Evaluation in Psychiatry](#)
- [Requirements for Clinical Skills Evaluation of Residents in Child and Adolescent Psychiatry](#)

Please contact the Credentials Department at credentials@abpn.com with any questions.

Sincerely,
Larry R. Faulkner, MD
President and CEO
