5. Cannabinoids
6. Tobacco/nicotine
7. PCP, hallucinogens, and inhalants
8. Caffeine
9. Other
E. Neurobiology
F. Other
02. Evaluation
A. Screening
B. Comprehensive assessment and diagnosis
1. DSM diagnostic criteria
2. Signs and symptoms of intoxication and withdrawal
a. Alcohol
b. Sedatives, hypnotics, anxiolytics
c. Cocaine and stimulants
d. Opioids
e. Cannabinoids
f. Tobacco/nicotine
g. PCP, hallucinogens, and inhalants
h. Caffeine
i. Other
3. Comorbidity
a. Psychiatric
b. Medical

American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

4.	Other
C.	Laboratory testing
D.	Psychometric testing
03.	Treatment
A.	Pharmacotherapy
1.	Management of intoxication (toxicity) and withdrawal
a.	Alcohol
b.	Sedatives, hypnotics, anxiolytics
c.	Cocaine and stimulants
d.	Opioids
e.	Cannabinoids
f.	Tobacco/nicotine
g.	PCP, hallucinogens, and inhalants
h.	Other
2.	Relapse prevention
a.	Alcohol
b.	Opioids
c.	Tobacco/nicotine
d.	Other
3.	Management of co-occurring conditions
a.	Psychiatric
b.	Medical (including pain, HIV)
B.	Psychotherapy and psychosocial treatment
1.	Brief intervention
2.	Motivational enhancement
3.	Cognitive behavior therapy
4.	Twelve-step facilitation
5.	Behavioral/contingency management
6.	Couples, family, and network therapies
7.	Mutual help approaches
8.	Other
C.	Other
04.	Systems-based practice
A.	Special populations
1.	Children and adolescents
2.	Geriatric
3.	Women (including pregnancy issues)

American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

4.	Professionals (e.g., health care workers, athletes, pilots)
5.	Ethnic and cultural groups
