

## American Board of Psychiatry and Neurology, Inc.

A Member Board of the American Board of Medical Specialties (ABMS)

### Certified – Retired

- Certified-Retired applies to Diplomates who have surrendered their medical license for non-disciplinary and/or non-ethical related reasons; therefore, no longer possess a full, unrestricted medical license and they have ended their professional career.
- Certified - Retired does NOT apply to:
  - Diplomates who have voluntarily or involuntarily suspended their practice with the intention of returning to practice at a later date.
  - Diplomates who have reported themselves as clinically inactive in their ABPN Physician Portal.

An ABPN Diplomate who is requesting to be reported as Certified-Retired must attest to all of the following:

- I have ended my professional career.
- I understand that the ABPN will report me as Certified-Retired on the ABPN website and to the American Board of Medical Specialties.

I understand that if I decide to return to practice and wish to reinstate my ABPN certification:

- I must notify ABPN.
- I must comply with all ABPN licensure requirements.
- I must complete at least one unit of the Continuing Certification (CC) Program activities before the ABPN will list me as certified.
- I must pass the CC examination, or its equivalent, if I previously held a time-limited certificate and it has been greater than 10 years since I passed an CC examination.
