

A Member Board of the American Board of Medical Specialties (ABMS)

#### **CERTIFICATION EXAMINATION IN PSYCHIATRY**

The American Board of Psychiatry and Neurology, Inc. (ABPN) utilizes two-dimensional content specifications for the psychiatry, neurology and child neurology certification examinations. Questions for the psychiatry, neurology and child neurology certification examinations will conform to these content specifications.

Within the two-dimensional format, one dimension is comprised of disorders and topics while the other is comprised of competencies and mechanisms that cut across the various disorders of the first dimension. By design, the two dimensions are interrelated and not independent of each other. All of the questions on the examination will fall into one of the disorders/topics and will be aligned with a competency/mechanism. For example, an item on substance use could focus on treatment, or it could focus on systems-based practice.

Candidates should use the detailed content specifications as a guide to prepare for a certification examination. Scores for these examinations will be reported in a standardized format rather than the previous percent correct format.

The American Board of Psychiatry and Neurology, Inc. is a not-for-profit corporation dedicated to serving the public interest and the professions of psychiatry and neurology by promoting excellence in practice through certification and continuing certification processes.

For more information, please contact us at <u>questions@abpn.com</u> or visit our website at <u>www.abpn.com</u>.

#### CERTIFICATION EXAMINATION IN PSYCHIATRY Content Outline

	Dimension 1
	Psychiatric Disorders and Topics
01. De	velopmental processes and development through the life cycle (psychiatry and
ne	urology)
a.	Infancy through adolescence
	i. Personality and other developmental processes
	a. Child development theory (e.g., cognitive theory, moral development, learning
	theory, psychodynamics)
	ii. Psychosocial influences
	iii. Other
D.	Adulthood
	<ul> <li>Personality adaptation and other developmental processes</li> <li>Psychosocial influences</li> </ul>
	<ul><li>ii. Psychosocial influences</li><li>iii. Acquisition and loss of specific capacities</li></ul>
	iv. Other
C.	Late life
ι.	i. Personality adaptation and other developmental processes
	ii. Psychosocial influences
	a. Life course – developmental and transitional events (retirement, death of a spouse)
	iii. Acquisition and loss of specific capacities
	a. Systemic, anatomic, and physiologic changes
	b. Psychological changes
	c. Other
	iv. Other
02.Ne	urodevelopmental disorders
a.	Intellectual disability
b.	Language disorder
с.	Speech sound disorder
d.	Childhood-onset fluency disorder
e.	Social communication disorder
f.	Autistic spectrum disorder
g.	Attention deficit/hyperactivity disorder

	Specific learning disorder
i.	Developmental coordination disorder
j.	Stereotypic movement disorder
k.	Tourette disorder
l.	Persistent motor or vocal tic disorder
m.	Provisional tic disorder
03. Su	bstance-related and addictive disorders
a.	Alcohol-related disorders
b.	Caffeine-related disorders
с.	Cannabis-related disorders
d.	Hallucinogen-related disorders
e.	Inhalant-related disorders
f.	Opioid-related disorders
g.	Sedative-, hypnotic-, or anxiolytic-related disorders
h.	Stimulant-related disorders
i.	Tobacco-related disorders
j.	Other (or unknown) substance-related disorders
k.	Gambling disorder
04. Sc	hizophrenia spectrum and other psychotic disorders
a.	Delusional disorder
b.	Brief psychotic disorder
с.	Schizophreniform disorder
d.	Schizophrenia
e.	Schizoaffective disorder
f.	Substance/medication-induced psychotic disorder
g.	Psychotic disorder due to another medical condition
h.	Catatonia
i.	Catatonic disorder due to another medical condition
j.	Unspecified catatonia
k.	Other specified schizophrenia spectrum and other psychotic disorder
ι.	Unspecified schizophrenia spectrum and other psychotic disorder
05. De	pressive disorders
a.	Disruptive mood dysregulation disorder
b.	Major depressive disorder
с.	Persistent depressive disorder (dysthymia)

d. Premenstrual dysphoric disorder         e. Substance/medication-induced depressive disorder         f. Depressive disorder due to another medical condition         g. Other specified depressive disorder         h. Unspecified depressive disorder         06. Bipolar and related disorders         a. Bipolar I disorder         c. Cyclothymic disorder         d. Substance/medication-induced bipolar and related disorderss         e. Bipolar and related disorder due to another medical condition         f. Other specified bipolar and related disorder         g. Unspecified bipolar and related disorder         g. Separation anxiety disorder         b. Selective mutism         c. Specific phobia         d. Social anxiety disorder (social phobia)         e. Panic disorder         f. Aggraphobia         g. Generalized anxiety disorder         h. Substance/medication-induced anxiety disorder         i. Anxiety disorder due to another medical condition         j. Other specified anxiety disorder         k. Unspecified anxiety disorder         b. a. Reactive attachment disorder	
b. Disinhibited social engagement disorder	
c. Posttraumatic stress disorder	
d. Acute stress disorder	
e. Adjustment disorders	
f. Other specified trauma- and stressor-related disorder	
g. Unspecified trauma- and stressor-related disorder	
10. Dissociative disorders	
a. Dissociative identity disorder	
b. Dissociative amnesia	
c. Depersonalization/derealization disorder	
d. Other specified dissociative disorder	
e. Unspecified dissociative disorder	
11. Somatic symptom and related disorders	
a. Somatic symptom disorder	
b. Illness anxiety disorder	
c. Conversion disorder (functional neurological symptom disorder)	
d. Psychological factors affecting other medical conditions	
e. Factitious disorder	
f. Other specified somatic symptom and related disorder	
g. Unspecified somatic symptom and related disorder	
12. Eating disorders	
a. Pica	
b. Rumination disorder	
c. Avoidant/restrictive food intake disorder	
d. Anorexia nervosa	
e. Bulimia nervosa	
f. Binge-eating disorder	
g. Other specified feeding or eating disorder	
h. Unspecified feeding or eating disorder	
13. Elimination disorders	
a. Enuresis	
b. Encopresis	
c. Other specified elimination disorder	
14. Sleep-wake disorders	

a.	Insomnia disorder
b.	Hypersomnolence disorder
C.	Narcolepsy
d.	Obstructive sleep apnea hypopnea
e.	Central sleep apnea
f.	Sleep-related hypoventilation
g.	Circadian rhythm sleep-wake disorders
h.	Non-REM sleep arousal disorders
i.	Nightmare disorder
j.	REM sleep behavior disorder
k.	Restless legs syndrome
l.	Substance/medication-induced sleep disorder
m.	Other specified insomnia disorder
n.	Unspecified insomnia disorder
0.	Other specified hypersomnolence disorder
р.	Unspecified hypersomnolence disorder
q.	Other specified sleep-wake disorder
r.	Unspecified sleep-wake disorder
15. Se	xual dysfunctions
a.	Delayed ejaculation
b.	Erectile disorder
с.	Female orgasmic disorder
d.	Female sexual interest/arousal disorder
e.	Genito-pelvic pain/penetration disorder
f.	Male hypoactive sexual desire disorder
g.	Premature (early) ejaculation
	Substance/medication-induced sexual dysfunction
	nder dysphoria
	sruptive, impulse-control, and conduct disorders
a.	Oppositional defiant disorder
b.	Intermittent explosive disorder
C.	Conduct disorder
d.	
e.	Kleptomania
f.	Other specified disruptive, impulse-control, and conduct disorder

g. Unspecified disruptive, impulse-control and conduct disorder	
18. Personality disorders	
a. Paranoid personality disorder	
b. Schizoid personality disorder	
c. Schizotypal personality disorder	
d. Antisocial personality disorder	
e. Borderline personality disorder	
f. Histrionic personality disorder	
g. Narcissistic personality disorder	
h. Avoidant personality disorder	
i. Dependent personality disorder	
j. Obsessive-compulsive personality disorder	
k. Personality change due to another medical condition	
l. Other specified personality disorder	
m. Unspecified personality disorder	
n. General personality disorder	
19. Paraphilic disorders	
a. Voyeuristic disorder	
b. Exhibitionistic disorder	
c. Frotteuristic disorder	
d. Sexual masochism disorder	
e. Sexual sadism disorder	
f. Pedophilic disorder	
g. Fetishistic disorder	
h. Transvestic disorder	
i. Other specified paraphilic disorder	
j. Unspecified paraphilic disorder	
20. Other conditions that may be a focus of clinical attention	
21. Neurocognitive disorders	
a. Delirium	
b. Other specified delirium	
c. Unspecified delirium	
d. Major or mild neurocognitive disorder due to Alzheimer disease	
e. Major or mild frontotemporal neurocognitive disorder	
f. Major or mild neurocognitive disorder with Lewy bodies	

g.	Major or mild vascular neurocognitive disorder
h.	Major or mild neurocognitive disorder due to traumatic brain injury
i.	Substance/medication-induced major or mild neurocognitive disorder
j.	Major or mild neurocognitive disorder due to HIV infection
k.	Major or mild neurocognitive disorder due to prion disease
l.	Major or mild neurocognitive disorder due to Parkinson disease
m.	Major or mild neurocognitive disorder due to Huntington disease
n.	Major or mild neurocognitive disorder due to another medical condition
о.	Major or mild neurocognitive disorder due to multiple etiologies
р.	Unspecified neurocognitive disorder
22.Ne	urologic disorders
a.	Infections of the nervous system
b.	Vascular diseases
с.	Disorders of cerebrospinal and brain fluids
d.	Neuro-oncology
e.	Trauma
f.	Birth injuries and developmental abnormalities
g.	Genetic diseases of recognized biochemical abnormality
h.	Cerebral degenerations of childhood
i.	Cranial nerve disorders
j.	Peripheral neuropathies
k.	Ataxias
l.	Headache
m.	Movement disorders
n.	Spinal cord diseases
